

GAURAV JAISWAL

MERN DEVELOPER

8149374828 @jaiswalgaurav7171@gmail.com Pune

SUMMARY

Experienced software developer with 1.7 years in software development, specializing in backend development with modern JavaScript frameworks such as Express.js and Node.js. Proficient in PostgreSQL and MongoDB, ensuring robust database solutions for scalable applications.

PROFESSIONAL EXPERIENCE

MERN DEVELOPER

Vyavssay Digiworld Pvt Ltd

08/2023 - Present Pune Station Road, Near Wadiya College

As a MERN / Backend Developer at Vyavsaay Digiworld, I specialized in backend development to enrich user functionality and enhance UI experience. My Primary Project included developing Lead Generation, Lead Management, Customer Relationship Management (CRM), and invoice generator applications. Utilized MERN stack technologies to deliver scalable and responsive solutions, ensuring seamless integration of features and optimal user experience.

- Frontend Development** : Developed responsive user interfaces (UI) utilizing Bootstrap themes to elevate user engagement and experience. Expertise in efficient API integration for dynamic retrieval and real-time display of data, ensuring seamless interaction with backend systems.
- Backend Development** : Proficient in modern JavaScript frameworks such as Node.js and Express.js to develop interactive components and optimize backend functionalities. Skilled in crafting robust APIs using Node.js and Express.js, employing asynchronous programming for efficient handling of concurrent requests.
- Database Management** : Design, develop, and maintain secure databases using MongoDB and PostgreSQL for managing both structured and unstructured data, ensuring scalability, security, and efficient data retrieval.
- API Integration**: Proficient in API development, integration, and management with a strong focus on security. Experienced in creating and testing APIs using tools like Postman for seamless functionality and reliability.
- Secure Software Development** :- developing secure software solutions leveraging industry-standard practices such as JWT token authentication, robust session management techniques, and secure cookie handling

PHP BACKEND DEVELOPER

Brightsea technology pvt.ltd

12/2022 - 08/2023 Pune

As a Full Stack Developer at Brightsea Technology Pvt. Ltd., I serve as the main point of interaction with clients from start to finish on website/software and portals. I specialize in creating dynamic dashboards, portals, and strong admin panels.

- Client Engagement and Collaboration**: Act as the primary point of contact for clients, ensuring clear communication and understanding of project requirements. Collaborate closely to develop websites, admin panels, and dashboards that meet client needs and expectations.
- Frontend Development** : Design and implement user interfaces to optimize user experience and attract clients. Employ best practices in frontend technologies such as HTML, CSS, JavaScript, Bootstrap, Ajax, and jQuery to create visually appealing and responsive frontend solutions. Ensure seamless integration with backend functionalities to deliver user-friendly experience.
- Backend Development** : Develop backend functionalities using technologies like PHP and CodeIgniter to support complex features, diverse options, and seamless integration with frontend interfaces. Implement robust logic and functionality to ensure optimal performance and reliability.
- Database Management** : Design, develop, and maintain secure databases using MySQL, PostgreSQL, and MongoDB to store and manage sensitive customer data. Implement advanced techniques for data security and integrity, ensuring compliance with regulatory standards

PROJECTS

- Customer Relationship Management [CRM]**
NodeJs, ExpressJs, PostgreSQL, Jwt, Bootstrap Template, Apis, Postman
- Lead Generation / Management Dashboard**
Php, My Sql, Session Management, Boostarp Admin Template, PhpMyAdmin
- Invoice Manager**
Express JS, Node JS, MongoDB, Compass, Boostarp Admin Template
- QuickCab Customer / Lead Management Dashboard**
Php, My Sql, Session Management, Boostarp Admin Template, PhpMyAdmin

PROGRAMMING LANGUAGES / SKILLS

ExpressJS	Node JS	PHP
Mongodb	Mongoose	PostgressSql
sql	API Development	RESTful APIs
API Fetching / Retrieval	Postman	
Html	Css	Javascript
Jquery	Bootstarp	React

EDUCATION

Master in Computer Science

Savitribai Phule Pune University

2021 - 2023 Pune, India

BSc Computer Science

Savitribai Phule Pune University

2019 - 2021 Pune, India

OTHER SKILLS

PROJECT DEPLOYMENT / HOSTING / Git / GitHub

Experience in project deployment using popular platforms such as GoDaddy, Bluehost, Hostinger, and A2 Hosting. I have successfully hosted various projects on these platforms. Additionally, Experience in using GitHub and Git for sharing code and uploading projects and tracking the code.
